

Durable anti-graffiti protection

Mysolv Anti-Graffiti Coating (MYS 6000AGC)

FEATURES/BENEFITS:

Highly Durable	Formulated for most hard & porous surfaces in all types of weather
Versatile	For use both outdoors and indoors
Protective	Prevents marker pens, spray paints and inks from penetrating surfaces
Air Permeable	Allows air to move freely through porous surfaces
Sacrificial Protection	Prevents damage and aids quicker, easier removal of graffiti

USE:

Ensure surface is clean and dry before applying. Protect windows & doors. Apply directly to the surface manually with a brush or roller, or through a low-pressure sprayer or paint gun. Apply from bottom to top, two coats are recommended, allow first coat to dry before re-applying.

Coatings should be re-applied once any subsequent graffiti has been removed.

APPLICATIONS:

For use on public buildings, schools, bridges and highways, car parks, train and bus stations etc.

PRECAUTIONS:

For further information see MSDS

SPECIFICATIONS:

Form Liquid
Colour White
Odour Sweetish
Melting Point..... <0 °C
Boiling Point 106 °C
Flashpoint: Not applicable
Density (20 °C) 1.01 g/cm³
Miscibility in water 500g/l
pH (20 °C) 8.5
